Mango Helmets

Mango is an Italian leading company operating on the international market as helmet manufacturer since over 30 years.

Founded in 1982, the company reached its present dimension in 1989 in the new headquarters located in Reggio Emilia, north-west of Italy, where Mango helmets are entirely developed and produced, with innovative techniques and 100% made in Italy components.

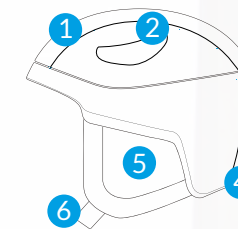

Our team is composed of highly experienced and up-to-date members that cooperate in order to reach Mango's mission, that is manufacturing safest helmets, CE EN 1077 guaranteed, with Italian top quality materials and the recognizable Italian Made design.

Investing in our resources over the years, allowed us to improve services continuously by implementing in our factory many of the production processes, so to be autonomous, ready to respond quickly to the changing needs of the market and achieve customer satisfaction.

We are proud to present hereafter our 2019 ski helmet collection and the Mango team at work while producing safe, comfortable and trendy Made in Italy helmets.
